THE RALEIGH NEWS

VOL. XIV--NO. 119. RALEIGH, N. C. TUESDAY MORNING, JANUARY 21, 1879. $5.00 PER ANNUM

THE "REFORM LEGISLATURE."

An Oversight--Perhaps.

Lincolnton Progress.

It is gratifying to notice that our Legislators seem disposed to reduce taxes by an indiscriminate reduction of salaries. The salary of the Governor, of Judicial officers and of all officers down to Keeper of Capitol are to be reduced. We have heard of no reduction of the per diem of Legislators, however. This is perhaps an oversight—perhaps not. We have always been in favor of low taxes and retrenchment in all forms of government, but we fear a further reduction in the salaries of Judicial officers will tend to impair the dignity and honor of the Bench, as retrenchment has already been made in that department by the reduction of the number of Judges from twelve to nine, thereby saving $7,500 to the State.

An Imperative Duty.

Wilmington Star.

If the present Legislature does not make an earnest, sincere effort to adjust the public debt it will be faithless to a great public trust, and will dodge a most imperative and binding duty. There are many considerations that press home this duty. A further delay will be simply inexcusable.

The Burdens Must Lighten.

Concord Register.

The question of the adjustment of the State debt the Legislature must grapple with. The people are in intense earnest in regard to the matter. The Governor's words are timely, and indicate to our Legislature that they must act. Their labors must constantly be toward economy, retrenchment of expenses, everything must be accomplished to lighten the people of the burdens of taxation under which they are now groaning.

"Dictating" to the Senate.

State Exchange.

The bill to abolish the office of State Geologist has passed the House of Commons. The Senate dare not refuse to endorse the action of the House. That move means business in the right direction.

Repeal the Homestead Law.

Kingston Journal.

"We ask for a repeal of the Homestead law as to future debts. It was passed as the poor man's relief, and vaunted all over the State as a protection to men of moderate means, but in fact, on the contrary, it helps to oppress and keep down the very class of men it was designed to protect.

A Bad Road Law.

Kingston Journal.

Our road law should be amended. As it now stands, the law is unjust and inefficient. Unjust in that it is not in accordance with ad valorem taxation—and inefficient, as plainly shown by the condition of the roads at all times and in every section of country. We venture to say that there is not a lawful road two miles long in Eastern North Carolina.

"Dictating" to the Legislature.

Wilmington Star.

We hope the Legislature will not make the mistake of supposing that it must remain in session sixty days if they can get through sooner. The South Carolina Legislature adjourned after a session of three weeks. More work and less talk is the desideratum. American legislative bodies are afflicted with—wind. Do the work well and thoroughly, bottle up your gas, and then go home as early as possible to your constituents.

Well Said.

Kingston Journal.

The State owes her children an education, and our representatives should have moral courage to provide the means, even if they are in advance of the whims and wishes of their constituents. It is cheaper to educate a citizen than it is to imprison or hang him.

[The organization of a Board of Education to serve without pay; the abolition of the office of Superintendent of Public Instruction and the conversion of "that ornamental office" into a Secretary of the Board of Education with small pay, is elsewhere suggested by a correspondent as the first step in reforming our public school system. The trouble with our correspondents plan is that immediate relief is needed.]

The Moffett Liquor Law.

Burke Blade.

The amount realized from the tax might go to the free schools or towards paying the interest on new bonds issued to take up the present State debt. It is of course as idle to talk of prosperity coming to a State in debt and making no effort to pay as it is to expect good luck to an individual acting in like manner. But no matter what disposal is made of the tax, we are in favor of trying the Moffett Liquor Law in North Carolina.

Homestead Agitation in Burke County.

Burke Blade. 18th.

Col. B. S. Gaither addressed the meeting at considerable length in advocacy of the present law—defending it from a constitutional stand point and eulogizing the philanthropic sentiment which moved the law-givers of 1868 to incorporate it into the organic law of North Carolina.

Col. Thos. G. Walton replied to him, declaring that it was a Radical device to secure the votes of enough dishonest democrats to secure the ratification of their work—that it was not an honest man's law—that it was no protection or benefit to the poor man nor to any but such as had property to hide away from honest creditors, that it destroyed confidence and credit, and paralyzed enterprise.

Judging from the applause which greeted Col. Walton throughout, the Homestead had few or no friends in that meeting.

A Valuable Officer.

Charlotte Observer.

The lawyers are having a fine time over the closing of Smith & Forbes, store. A Mr. Reynolds, of Boston, took possession of the store, as assignee' and constable McLure, having a number of judgments from other Northern creditors, acting under legal advice, broke open the window and walked in. There was no breach of the peace, though a large and curious crowd thronged the door at the time.

ANOTHER tantalizing report comes from Washington, to the effect that "there appears to be good reason for the belief that five of the nine members of the Senate Finance Committee are disposed to favor a reduction of the tobacco tax from twenty-four to twenty cents. and not to sixteen, as proposed in the House bill."

EDMUNDS resolutions declaring the 13th, 14th and 15th amendments constitutional, the decision of the Supreme Court of the United States to the contrary notwithstanding, was the subject of caucus consideration by the Democratic Senators on Saturday. As we learn by yesterday's noon telegrams a substitute will be offered recognizing the finding force of the amendments but declaring the Legislation contemplated in the resolutions in conflict with the decision of the Supreme Court of the United States in the case of Cruikshanks.

THE Northern papers assign Senator Vance to position in the heavy ordnance train. The Philadelphia Times says: "In the Forty-sixth Congress the Republican side of the Senate will be mentally and morally, as well as numerically, weaker than it has been for a score of years while the Democratic side will be stronger in the same proportion than it has been since the day when the Democracy fell into the arms of secession and became well-nigh comatose. so far as the Northern States are concerned. Thurman, Bayard, Wallace, Kernan, Pendleton. Voorhees, McDonald, Hampton, Hill, Gordon, Vance will find only an Edmunds as the peer of any of them in the heavy artillery of debate, and Blaine about the only foeman fit to cope with them in the use of the lighter and keener weapons of parliamentary warfare."

CLOSE on the heels of the disreputable conduct of those Northern Democrats who allowed themselves to be bulldozed into an act of sectional folly and disbonesty in the case of the College of William and Mary follows another extraordinary and costly piece of clap-trap legislation. The Senate by an almost unanimous vote, passed the bill Friday for the payment of arrears of pensions. When this bill passed the House last session by over a two-thirds vote it was generally supposed it would never be favorably acted on by the Senat. Members of both parties voted for it as a sop for the soldier vote. The opposition to the bill was chiefly from a few Southern members, who had courage enough to withstand the charge that they were inimical to the claims of Union soldiers. It was shown then that the provisions of the bill will take from the Treasury at the lowest reasonable estimate fully twenty millions.

One of Butler's "Bricks."

Mr. B. F. Butler has been writing a felicitious letter to somebody in Mississippi, in which he says:

"I voted fifty-seven times for Jefferson Davis as the Democratic candidate for the Presidency in the Charleston Convention in 1860. I believed "him to be a representative man of the "South, and subsequent events have "shown that I was right. And I believed then, and believe now, that if "he could have been nominated for "President and elected, the war would "have been saved, and the attempted "disunion prevented, for he would "have chosen to be President over "thirty-two States rather than fifteen, "and my experience has been that the "North always got more consideration "on questions of human liberty from a "Southern statesman as President bef"fore the war than it did from a Nor"ern doughface, and that remains true "down to the present time"

Gathering Them In

By Telegraph to the News

CINCINNATI, Jan. 20.—A despatch from Elizabethtown, Ky., says the revenue raiders, under Capt. Adair, returned last night bringing seven moonshiners of the most dangerous character. They were captured on Otter Creek, Larue county, and had long defied the authorities. The officers attacked their still house Saturday night, capturing four men. They found two stills in operation and destroyed the material. These parties had long been a terror to the country and boldly defied the officers.

By the same, a bill entitled an act to amend section 345 of the Code of Civil Procedure, being chapter 17, section 345 of Battle's Revisal. Referred to Judiciary Committee.

BILLS REPORTED.

Mr. Henderson, Chairman of the Finance Committee, reported a number of bills from said Committee, which were properly referred and disposed of.

Mr. Nicholson, Chairman of the Committee on Engrossed Bills, reported the following to be engrossed: S. R. 141. S. B. 119, S B. 70, S. B. 39, S. B 29, S. B. 23, S. B. 7.

CALENDAR.

Senate bill 128, an act to incorporate the Bennettsville, S. C., and Hamlet, N. C. Railroad Company was taken up.

Mr. Leach spoke in favor of the bill, and asked that it be put upon its second reading.

Mr. Snow was in favor of having the bill printed, as the Senators would then have a copy to read and see exactly the merits of the bill. He moved that the bill be printed.

Mr. Leach had no objection to the printing of the bill, in fact favored the printing of all bills as it made them more explanatory.

A number of Senators spoke in favor of and against the printing of the bill.

Mr. Robinson favored the passage of the bill to-day, as already enough time of the Senate had been occupied.

After further debate Mr. Leach moved that it be postponed and made the special order for Saturday next at 12 o'clock. The motion to postpone prevailed.

The question next recurred upon the motion of Mr. Snow to have the bill printed, which was lost.

S. B 151, a bill to be entitled an act to authorize the collection of arrears of taxes of the town of Salisbury for the years 1876 and 1877. The bill embraces the towns of Goldsboro and Salisbury. The amendments of the bill were adopted. The original bill was then passed by a vote of 36 to 3.

A message from the House was received, transmitting the following bills: H. B 62, H. B. 49, H. B. 178, H. R. 19

Mr. McEachairn, moved that the rules be suspended and H. B, 62, which changes the time of holding the Superior Courts in the Fourth Judicial District, be taken up. There being no objection, the rules were suspended and the bill passed its several readings.

S. B. 126, was then put upon its third reading, but upon motion of Mr. Dancy was postponed until to-morrow, the introducer of the bill being absent.

On motion of Mr. Bull, the Senate adjourned until 10 o'clock to-morrow.

[NOTE.—Dr. King was reported in Thursday's proceedings, upon an amendment offered by him to Mr. Dortch's bill in regard to the seduction of women, as striking out 18 and inserting 20, when it should have been 16 instead of 20.—REPORTER.]

HOUSE OF REPRESENTATIVES.

JANUARY 20th, 1879.

The House was called to order at 10 o'clock, by the Speaker.

Mr. Barringer was announced as detained from his seat by illness.

PETITIONS AND MEMORIALS.

By Mr. Scott, to incorporate Germania Lodge, No. 4, K. of P., of Wilmington. Corporations.

By Mr. Dimsdale, to allow the sheriff and tax collector of Polk county to collect arrears of taxes for 1875-'76-'77. Finance.

UNFINISHED BUSINESS.

By consent Mr. Amis introduced a resolution to print 10 copies extra for each member, of the report of the Commissioner of Agriculture. Passed.

Mr. Lockhart, of Committee on Propositions and Grievances, reported on a bill to amend the charter of the Mt. Airy and Central R. R. The bill, as amended, makes the railway tap the Yadkin river at Bean Shoals. It also allows county and township subscriptions to the work, and grants the use of 200 convicts. The road is to run to Ore Knob, in Ashe county.

Mr. Vaughan explained the bill fully. Mr. Carter, of Buncombe, said all bills in relation to grants of convicts should go to the committee on Internal Improvements. The bill then passed its second reading, was ordered to be printed and referred to the committee.

On motion of Mr. York H. B. 103, in relation to a grant of 200 convicts to the Yadkin Valley, R. R., was taken up, passed second reading, was referred to the committee on Internal Improvements, and ordered to be printed.

On motion of Mr. Meares H. B 114, it providing for punishment for those who entice seamen from their vessels, was taken up, but after some discussion was referred to the Judiciary committee.

On motion of Mr. Ardrey, H. B. 105, to amend chapter 83, private laws 1876-'77, was taken up and passed both readings.

On motion of Mr. Davis of Madison, H. B. 111, to incorporate Warm Springs Turnpike Co., was taken up, passed second reading and was then placed on the calendar.

On motion of Mr. Scott, H. B. 188, to incorporate Germania Lodge, No. 4, K. of P., was taken up but was referred to the Committee on Corporations.

H. R 60, in regard to the appointment of a committee to investigate the right of Mr. A. C. Meares, sitting member from Brunswick, to a right to a seat, made special order for the day, was taken up and adopted.

CALENDAR TAKEN UP.

On motion of Mr. Richardson, of Columbus, the Calendar was then placed at the disposal of the Speaker, who then proceeded to call the bills expeditiously and they were taken up as follows:

H. B. 5, concerning the captions of bills and resolutions passed its readings.

S. R. 21, relieving Judge Schenck from fine for failure to hold court, by reason of illness, passed its readings.

H. B. 34, amending section 1, chap. 14, laws 1874-75, in relation to the Watauga N. G. R. R., making its terminus the Tennessee line, at Cranberry, passed its readings.

H. B. 38, repealing chap, 141, laws 1876-77, in relation to county governments, was laid on the table.

H. B. 39, to provide compensation for persons wrongfully imprisoned, by paying them $1 per day while so held, was laid upon the table.

H. B. 58, to regulate the roll of interest, making it six per cent legal rate, was postponed and made special order for Friday at noon.

H. B. 99, to authorize the tax collector of Cherokee to collect unpaid taxes of 1876-77, with some amendments, passed its readings.

H. B, 53, for the benefit of the jurors of Surry, creating a fund for their payment, passed its readings, with amendments adding Haywood, Jackson and Ashe counties to the bill.

H. B. 168, to extend the time for payments of debts contracted prior to 1868, was laid on the table.

H. B. 69, giving the people of Polk county the right to fish in the streams of that county, and prohibiting obstructions of such streams, was tabled.

H. B. 71, for the relief of persons confined in the common jails, by requiring the county commissioners to properly heat the jails and otherwise consult the comfort of persons so held.

Mr. McCorkle made a speech favoring the bill, and said that the duty to properly provide for the comfort of prisoners was in the province of the county commissioners, and they should be responsible. He spoke of the condition of prisoners in many of the jails, ill-clothed, poorly fed, and shivering with cold, and said that the law of humanity demanded attention to this matter. Mr. Clarke took the same view, saying the prison system of the State was a disgrace to humanity. The bill was then referred to the Committee on Penal Institutions, on motion of Mr. McCorkle.

H. B. 73, to amend chapter 67, private laws, 1876-'77, in regard to a turnpike road in Watauga, passed its readings.

H. B. 76, to protect the honest trades and professions from imposition and fraud, was referred to the Committee on Propositions and Grievances.

H. B 77, amending chapter 37, Battle's Revisal, in regard to divorces, was laid on the table.

H. B. 106, to amend sections 8 and 10, Battle's Revisal, in relation to the duties of County Treasurers. Requiring these officers to keep the county funds seperate from their own, and to post each month a statement, itemized, of the expenditures, etc. Mr. Vaughan offered an amendment so that any disbursing officer shall come under this act. The bill was explained by Mr. Colwell, who advocated its passage, as did Mr. Bernard, who said it would assist every branch of the county government. The amendment being adopted, the bill then passed its readings.

H. B. 82, amending chapter 102, laws 1876-'77, was tabled.

H. B. 83, to repeal chapter 29, Public Acts 1876-'77, was referred to the Judiciary Committee.

H. B. 85, to repeal act allowing County Commissioners and others to hire out convicts, was laid on the table.

H. B. 87, to protect sheep and tax dogs, was laid on the table. It will be replaced by another bill, to be introduced by Mr. Amis.

H. B. 91, to amend sub-section 9, section 33, Code of Civil Procedure, in relation to actions for the relief in cases of fraud or mistake, passed its readings.

H. B. 92, to amend chapter 28, laws of 1876-'77, as to cases before Justices of the Peace, was laid on the table.

H. B. 96, to prevent tramps from infesting and depredating, and providing for their imprisonment. Mr. Orchard said farmers living in Cabarrus county, on the lines of the railway, were sorely troubled with tramps, and sometimes lost nearly their entire crops by their ravages. Persons had been compelled to leave the county and go into the towns to escape the nuisance. He moved a reference to the Judiciary Committee. This Mr. Colwell favored.

Mr. Atkinson offered a substitute excepting from the act well-known objects of charity in this State.

Mr. Christmas sent in an amendment excepting Warren county from the act. The bill, with these amendments, was then referred to the Judiciary Committee.

H. B 97, to allow the sheriff of Watauga to collect arrears of taxes for until 1880, was laid on the table.

At 1:30 p. m., the House adjourned until 10 o'clock to-morrow morning.

[NOTE.—The NEWS has on one or two occasions credited bills introduced by Mr. Colwell, of Duplin, to Mr. "Caldwell." And in Saturday's report a bill introduced by Mr. Colwell was credited to Mr. Lamb, his colleague.—REPORTER.]

CONGRESS.

By Telegraph.

WASHINGTON, Jan. 20.

SENATE—Conkling and Kenan presented a premable and resolution of the New York Legislature, opposing the passage of the bill to reorganize the army, or at least that portion of the bill relating to the ordnance department of the U. S. arsenals, and ordnance stores. Laid on the table, the bill having been reported to the Senate.

The House is occupied in reference to the bills introduced under the call of States.

The Democratic Senators held a caucus this morning to consider what course to pursue on the resolution of Senator Edmunds, now pending in the Senate, in relation to the enforcement of the 13 h, 14th and 15th amendments, and to protect all citizens in the exercise of all the rights secured by laws passed for that purpose, &c. The Democratic Senators agreed upon a substitute for the above named resolution, to be offered when it shall be taken up for consideration in the Senate, while in this substitute they admit that the 13th, 14th and 15th amendments to the Constitution be of binding force and validity. They regard Senator Edmunds' resolution as proposing legislative, action, in conflict with the decisions of the Supreme Court of the United States, particularly in the Cruikshank case regarding those amendments, and they quote from the dicta of the Court to sustain the ground which will be taken in the substitute that the United States have no citizens distinctively their own, and that the Constitution does not confer the right to vote on any one, but simply confers the privilege of freedom from any discrimination on account of race, color or previous condition, and that the regulation of suffrage belongs exclusively to the several States.

Morgan presented a series of resolutions expressive of the views of the Democratic Senators upon the constitutional amendments as agreed upon in the caucus this morning, which was laid on the table for the present.

Senate resumed the consideration of the bill to amend the patent laws.

The meeting of the Senate Privilege and Election Committee, which was called for the purpose of acting on the Corbin-Butler contest to-day, did not take place, there being less than a quorum present—none of the Democratic members of the Committee present could account for the party caucus on Edmunds' resolution.

HOUSE—A resolution referring to the question of the electoral frauds will be reported to-morrow. Its reading was called for to-day. It recites that certain alleged telegrams in the Cipher have been published indicating that attempts were made after the Presidential election of 1876, to influence, by money or other fraudulent methods, the vote of the electors or action of the canvassing officers in Florida, South Carolina and Oregon. It therefore directs the committee on investigation of election frauds to inquire into the same and into any other matter connected with such election, which in its judgment may be proper, with power to send for persons and papers and to report at any time. Also appropriating $10,000 for the purpose of defraying expenses.

House passed a bill providing for the settlement of outstanding claims against the District of Columbia.

Springer introduced a bill to secure to the people of every State an equal and just representation. He presented in connection with the bill, a statement showing that under it there would have been elected at the last November election, from the South, 34 Republicans instead of 6, (or a Republican gain of 28,) while the Democrats would have realized a like gain in the North, and that the general result would have been the same, but that the Republican minorities at the South and the Democratic minorities at the North would have been equally represented in Congress, and that the four millions of colored population could control the election of 32 members in the following States: Alabama, 3; Arkansas, 1; Georgia, 3; Louisiana, 2; Mississippi, 2; North Carolina, 3; South Carolina, 2; Tennessee, 2; Texas, 2 and Virginia, 2.

The State Geologist.

Correspondence of the News.

The House of Representatives of the present Legislature has done at a hop, skip and a jump what previous Legislatures have often tried, and, with along running start, have always failed to do. It has abolished the office of State Geologist, and almost without debate, and mainly on the report of a committee, have brought that important office under the remorseless wheels of the popular movement of Retrenchment and Reform, and done its part to crush it out of existence.

The writer of this communication is committed in all ways, as a politician, as a statesman, and as a thorough sympathizer with the afflictions of the people, to the most thorough practicable reform. But he will advocate only what is judicious, and what leads directly to the amelioration of popular grievances. But he does not conceive retrenchment to consist in the destruction of institutions, of offices and of duties merely because those institutions, offices and duties are connected with the expenditure of public moneys; or without having regard to reciprocal duties of the commonwealth having in charge the collection and the appropriate disbursement of those public moneys. An individual may economize even to the verge of parsimony without incurring censure, because he harms and pinches none but himself or his family; but a commonwealth, with the magnitude of its duties and the responsibility of sagacious provision, cannot act so freely. It must look abroad, and know when and where to spend, and when and where to save. "There is a time to sow and there is a time to reap; a time to withhold, and a time to scatter abroad." The truest economy is often in that direction which ignorance or short-sightedness or the cry of the demagogue may stigmatize as extravagance. And a commonwealth, to duly foster its resources or give them their full development or publicity, is under strap to provide the needed means even should it require curtailment in other directions.

Now, I conceive that nothing that has ever been done in North Carolina is calculated to make so wide and so deep impressions upon her future fortunes as this object of popular obloquy, the geological survey. Even the most ignorant among us are impressed with the fact of the wonderful mineral richness of the State. Every county in it pays some exhibit of minerals, ores, marls, building stone, &c., and incessant appeals were made upon the geologist to determine the extent, character and value of deposits. Every man, in his enthusiastic hopes, believes he has a fortune on his domain; and it is perhaps from the inexorable fiat of scientific judgement, dispelling many a glowing illusion, that the resentments of disappointments have allied themselves with the forces of governmental frugality to bring down destruction upon a common enemy. But while there has been disappointment, there has also been confirmation, and more than conformation, and confessedly through the agency of the Geological department, North Carolina is laid open to the world as the wonder land of both hemispheres, with more gold than California, more copper than Cornwall, more iron than Sweden, with silver, and lead, and coal, and marble, and other minerals, not to speak of the information obtained and diffused relation to the character and localities of land, water-powers, of forest wealth, climate, vital statistics, &c.

If there is any State which stands in need that such information should grow abroad, it is North Carolina. Not a great many years ago there was an epidemic exodus from the State. Whole communities evacuated it and crowded into the wilderness of the South and West. They did so mainly because they did not know the value of the country they left behind them. Their emigration gave a serious check to the increase of our population; besides woefully impoverishing the State by the withdrawal of the property taken with them.

The war gave additional impulse to the down-hill progress; and true wisdom will appropriate every means to arrest it. What is more effective than the agency which demonstates, as only such agency can authoritatively do, that North Carolina contains within its boundaries more that is attractive to population and to capitol, the only things she needs, than any other State in the Union. Yet it is proposed to stifle it, because it has not analyzed the soil of every man's acre, or reported upon the minerals of every individual county. States are created to exist for generations, not for years; and the works they inaugurate are not confined within a single political cycle, but are coexistant with their own duration. The research, the scientific investigation, the close analysis are operations that may extend over years; yet each individual decision is the establishment and confirmation of a new fact, pregnant with the future good of the commonwealth.

The eyes of the world are already drawn by means of the Geological Department to North Carolina. The exhaustion of mines on the Eastern Continent is compelling capitalists to search out new fields for labor and investment. The embarrassments of manufacturers in England enforce the transfer of their works to other fields. The subsidium of political troubles in this country will tempt them across the water. They may be tempted to North Carolina, yet we would slam the door in their faces, and extinguish the only light there is to guide them.

If the hostility is to the present incumbent of the office, abolish him, but for the honor and for the welfare of the State, do not abolish the office.

I "look to the Senate." Y.

North Carolina.

Danbury Reporter.

How few—very few—of the people of North Carolina know anything of the great resources and inestimable wealth that lies buried in the earth and spread out upon the surface of the Piedmont country. More, decidedly more, is known of this rich, beautiful, salubrious and productive section in Virginia, New York and Pennsylvania, by far, than is known by citizens of our own State, residuary east of Salisbury or west of Asheville. We pay annually, and have since the year 1849, five thousand dollars—in all, over one hundred thousand dollars, besides what has been paid for printing reports, etc., and, after all, what do our people know of the extent and value of the iron deposits in Mitchell county, at Cranbury? What of the quantity, value and extent of the copper deposits in that county? What of the vast quantity and superior quality of the iron ore in Alleghany and Watauga counties? What of the white sulphur springs, the matchless rock quarries, both as to quality and extent, the iron ore, rich lands and water-power in Surry county? And what of alum and alum springs—the great, valuable and superior quality of the coal deposits at Stokesburg and Walnut Cove, and lime at Boleyjack's, and at various other points as well, beside the 1200 acres of iron land that belong to the old Moody plantation, in Stokes county? And what of the great magnetic belt that runs for over thirty-five miles through Guilford, and the iron-works at Friendship, beside cotton and other factories, in Guilford? What of the cotton factories and iron ore, timber and water-power, that abounds all along Deep Run, and other streams, in Randolph? What of the iron, coal, soapstone, mineral and salt springs, soil, timber, cotton and corn, of Chatham? What of the millstones, tar, pitch and turpentine, cotton, and other productions of Moore county? Indeed, no section of country can boast of more natural wealth than this same Piedmont section, of North Carolina. Yet, all of this wealth, as vast and diversified as it is, must first be developed before it can be rendered available. It can never be developed so long as the people inhabiting the section refuse to assist in building railroads, and wait for other States to build their roads for them. As long as we remain unknown, and unconnected with the business and progress of the world, our great mineral wealth will afford no practical benefit.

[What is needed in North Carolina is a broad State policy of internal improvements. The State's means and resources should not be expended and exhausted on one section or locality to the exclusion of another. ED.]

Our Board of Health.

Wilmington Sun.

The Board is a public institution. Its establishment secure a modicum to enable it to work efficiently. It is well organized, and only needs a small fund to put it on a firm footing. The North Carolina Medical Society has hopefully nursed the enterprize. But doctors are poor, and after all it is not their duty to provide a ready-made sanitary system for the State, and keep the wheels greased too. The Society has, however, with a noble generosity employed what it could of its own means to assist in getting the Board into operation. It is now the becoming thing for the Legislature to come to its assistance. The paltry appropriation of $100, made by the last Legislature, was barely sufficient to pay the stationery and printing bills. Let the General Assembly make an appropriation which shall contribute materially to the great cause of our public health, a cause which the Federal government has thought worthy of forwarding in all possible ways.

Geo. E. Badger.

Wilmington Star.

When Mr. Badger was in the United States Senate Rufus Choate, of Massachusetts, had a very important case involving maritime law before the U. S. Supreme Court. He was counsel for his State, and it was impossible for him to go to Washington to attend to the case. In his extremity he called on Robert C. Winthrop to know whom he should employ in his stead. He was told to write to Mr. Badger. "Why," said Choate, "what does Badger know about maritime law? He never had a case in his life." "Never you mind" replied Mr. Winthrop, "you employ him, and then hear him before the court. You will think that maritime law is his specialty—that he has been practicing in maritime courts all his life."

A PLEA FOR OATMEAL.—To say nothing of experience, Liebig, the great chemist, and greatest authority on such subjects, shows oatmeal to be almost as nutritious as the very best English beef, and that it contains a larger proportion than wheaten bread of the elements that go to form bone and muscle. This was proved by a course of experiments carried on for a series of years by Forbes, an eminent philosopher and the discoverer of the glacier theory, at that time Professor of Natural Philosophy in the Edinburgh University, and afterward Principal of the University of St. Andrews. For twenty years or so he measured the breadth and height and also tested the strength both of the arms and loins of his students, a very numerous class, consisting of different nationalities, drawn to Edinburgh by his fame. These were the results: In respect of height, breadth of chest and shoulders, and strength both of the arms and loins, the bottom of the scale was occupied by Belgians; above them, and but a little higher, stood the French; very much above them stood the English; while the top of the scale was occupied by the Scotch and the Scotch-Irish from Ulster, who, like the native of Scotland, are fed in their early years with at least one meal a day of good milk and good porridge.—*Dr. Guthrie.*

Arrest of Murderers--Attempt to Lynch.

By Telegraph to the News.

RICHMOND, VA, Jan. 20.—John S. Lacy, of New Kent county, was murdered Friday night near Tunstall's station, on the Richmond and York River Railroad. Two negroes and a boy were arrested. The boy stated that the negroes committed the crime, which they afterwards confessed. An unsuccessful attempt was made last night to lynch the negroes who are in custody at Talleysville. Indications are that another attempt will be made to-night.

DAILY NEWS

TUESDAY, ... JANUARY 21, 1879.

TO-DAY will be a memorable one in the history of the Democratic party in North Carolina. The election of Gov. Vance to-day to the United States Senate is the skirmish before the great battle in 1880.

We shall, in all probability, have something to say hereafter on the prolific topic suggested by the profound observation just made, and at the outset we disclaim any intention "to dictate to the Democratic party who shall be" Governor.

JUDGE BUXTON will to-day receive the votes of the Republican members of the Legislature for the United States Senate. The empty honor of a minority nomination is interpreted here to mean that Judge Buxton will be the candidate of the Republican party for Governor in 1880. Dockery is considered a stronger man, but the "Greensboro Ring" is hostile to him. Ex-Judge Read, it is unders tood, wil not accept a nomination.

THE able vindication of the State Geologist by our correspondent "Y," will be read with interest. The Geological Department is not abolished by the House bill. It is transferred to, and consolidated with, the Department of Agriculture. The abolition of the office of State Geologist, the House conceived to be wise economy, and it can hardly be doubted reflects popular sentiment. But we wish to be understood as not "presuming to dictate to the" Senate in the premises. The NEWS never presumes, but assumes that some people make asses of themselves when they assume that the NEWS does "presume to dictate," etc.

"'TIS WORTH that makes the fellow." Only a short year ago old Gen. Shields was hobbling about the lobby and corridors of the House a mendicant for the office of doorkeeper. His friends saved him the humiliation of wearing Polk's soiled ermine, and to-day he will be elected to the United States Senate by the Missouri Legislature, having received the nomination for the remainder of the late Senator Bogy's term, which expires March 4, 1879. He is now eighty-eight years old. He has served in the Illinois and Missouri Legislatures, was Auditor of Illinois, Judge of the Supreme Court of that State, represented it in the U. S. Senate, as also the State of Minnesota; was a Major-General in the Mexican war and in the late war between the States, in both of which he won distinction. While the honor now conferred upon him will be short-lived, it nevertheless, sheds additional lustre upon the gallant old veteran.

The new lands settled in 1878, are estimated at 20,000,000 acres, and the occupants thereof at not less than 100,000 families, equal to half a million souls. These persons are mostly Americans. They are small farmers from the Eastern or old Western States, or mechanics, trades people and their clerks, who have found work or business slack and unremunerative in the cities. This, the Commercial Advertiser thinks, is one of the phenomena now rich with promise for our future.

We are becoming more and more a nation of farmers. The growing disposition to till the land as a means of livelihood has a corrective tendency within itself. It will not probably be overdone. But it will restore the lost equilibrium among the varied industries of the country. It will give work and support to every self-helping, pushing frugal man who finds the competition too keen and the wages not "living" in the old States and the crowded haunts."

One consequence of this stampede from other walks of life to the vocation of farming, appears in the enormous increase of the crops of 1878 over those of the previous year. The full report (special—No. 9) of the Department of Agriculture, just at hand, gives glowing details of the annual crops, particularly of wheat, corn, oats and hay, in which the gain was most remarkable. These bountiful crops have been next to peace, the chief of our national blessings. They have made food plenty and cheap at home. They have contributed to that grand excess of exports over imports which is the delight of American economists at this time. They have imparted a measure of life to railroads and manufactures and to many trades and callings which would have languished and died but for the healthful stimulant of the crops. And while everybody else has been benefitted by the golden grain, the farmers themselves have had a profitable season. Prices have been low, but so have wages and supplies, as a rule. Taking every thing into account, we may say that the farmers have laid up more money than any other class of people in 1878. Under auspices as favorable as these, we may reasonably expect that the farming population will continue to increase at a greater rate for a while longer.

Marked Increase of the Farming Population.

The marked increase in the farming population of the United States is one of the most encouraging signs of the restoration of business and the revival of general prosperity. According to the highest commercial authority in this country, Dun Barlow & Co's. annual circular, the past year has seen the greatest change ever know in the same space of time in the peaceful industries of the American people. Instinct, good sense, necessity, have impelled thousands to quit unproductive pursuits and seek subsistence on the generous bosom of Mother Nature. "All the Western railroad companies "having lands to sell have derived a "large part of their profits for the year "from that source. The rush for those "choice properties" has been unprecedented. Roads which formerly ran "through miles of wilderness are fast "being lined with waving crops and "happy homes. The new settlers, besides paying the companies for their "lands, are furnishing an increased "business to the lines. So it happens "that the Western roads are fast taking "rank among investors with the oldest "and most thriving roads in the Eastern States. The Federal Government "—the greatest of the landed proprietors—has been the busiest and most "successful of sellers. For the year "ending June 30, 1878, the government "sold 7,562,000 acres, against 3,338,000 "for the corresponding period in 1876-7. "In the single State of Minnesota the "total sales of land reported were "2,348,000 acres. Every State in the "West and Northwest has profited by "this new hegira. Wherever lands "adapted for cereals could be found "bordering a railroad or navigable river, there came the speculators, "prospectors," or bona fide emigrants "ready to buy. Happily, this time, it "is the genuine emigrant, and not the "middle-man, who is purchasing the "farming country of the West."

MISCELLANEOUS.

SAVE YOUR HAIR TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in very way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the coats and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN.

Had been entirely bald for several years, consequential, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

Two very important respect the Kathairon is absolutely incomparable. It is unequaled

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no dangerous nostrum of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is delightfully perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet is complete without Lyon's Kathairon.

REFORM.

The Proposed Code Commission

Correspondence of the News.

GOLDSBORO, Jan. 20th, 1870.

In reply to your views that the sale of the Code will pay expenses, I call your attention to the fact that while Battle's Revisal cost $19,000, the sales I think you will find were under $3,000 making a net loss of about $16,000. Codes generally pay the commissioners but not the tax-payers. A very large proportion of the edition will be necessarily distributed free to the 3,500 magistrates and other officials. The changes made in the laws in the four or five years since Battle's Revisal, are not sufficient to justify so large an expenditure.

WAYNE.

How the Convicts Should be Employed.

Correspondence of the News.

MT. AIRY, N. C., Jan. 14.

The convicts should be employed in developing our mineral and Agricultural wealth. Such wealth grows. A small expense now creates continually more and more good to the State. Legislators who have at heart the true interest of North Carolina would do well to think of this. Other States may employ their convicts in making shoes, &c. This is temporary and only income. Opening mines of coal, iron, lime is creating capital for the State and an income perpetual. For a short time's work of the convicts how much good is accomplished for present and future generations. The patriotic Legislators with minds and hearts large enough to take in the entire State and scorn selfish and local interests—these men create prosperity and make good laws.

Jno. M. Morehead, Jno. A. Gilmer, Calvin Graves, Frank Caldwell and others, thought, no doubt, they were doing much for the old North State in uniting the mountains to the Sea. And they did the best that could have been done at that time, when they urged the building of the North Carolina Rail Road. Unfortunately nature did not intend any place but Wilmington for our commercial metropolis. This insurmountable fact has been somewhat ignored by our Legislature and by our public spirited men. But the memory of these men should be cherished for the good they did and intended.

The shortest way from the Mountains to the Sea is across the State—not lengthwise the shoe string. Fortunately a good seaport is convenient at Wilmington. Still more fortunately such a railway would penetrate the best agricultural section. Coal, iron, copper, lime in Stokes, Rockingham and Surry would make a railroad pay more income to the State than the convicts would in making shoes. Virginia is at this moment striving for the trade of Dan and Yadkin. Charleston will reap the harvest which North Carolina has sowed in developing the Asheville country and beyond. The Legislature can now do something for the State which can not be appropriated by others, to-wit, build up our towns and country. Wilmington ought to have 100,000 inhabitants. The inland towns of North Carolina ought to be doubled in population. Will North Carolina sleep forever?

Let the Legislature settle the State debt in some shape, and with sleeves rolled up we will go to work and develop the resources of the State. Remember if nothing be done this sitting of the Legislature two years will roll along their slow length before another meets. We have the greatest State in the Union, in many respects, if her sons were more energetic, plucky and public spirited. Intellectually she can boast, but commercially not much.

CIVIS.

[Emphatically, our correspondent is right, and it's to be hoped that his suggestions will not fall on heedless ears. —ED.]

Senatorial Contests.

Washington Post.

The senatorial contests in various states have been an interesting feature of the week's news The Missouri Democrats selected two gentlemen whose nominations will be ratified by the state legislature to-day in the persons of Col. Vest and Gen. Shields. The Connecticut Republicans, after a fierce struggle, threw both Hawley and Jewell overboard and nominated an unknown individual by the name of Platt, and the North Carolina Democrats did honor to themselves and their state by giving a unanimous indorsement to the senatorial aspirations of Gov. Vance. Contests, begun during the week, are still raging in Wisconsin and Illinois, with little prospect of an immediate settlement, although in the latter state Logan is supposed to be in the lead for the Radical caucus nomination. His ultimate election, however, is another affair.

[Logan received the nomination and will be elected to-day.—ED. NEWS]

Chapel Hill's Future.

Ledger.

The future prospects of Chapel Hill are encouraging. Our friends tell us that the railroad will certainly be built within the next year, that a sufficient appropriation to carry on the Normal School will be allowed, and that everything that can be done to build up the University will receive a hearty support from the Legislature. Strangers are moving here, new houses are being built and our merchants and citizens are smiling over the prospects. Sustain your paper. See how the skies are brightening, and have brightened, since its establishment in your town. Hurrah for Chapel Hill!

THE GENUINE
DR. C. McLANE'S
Celebrated American
WORM SPECIFIC
OR
VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,
DR. C. McLANE'S VERMIFUGE
will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY

in any form; it is an innocent preparation, *not capable of doing the slightest injury to the most tender infant.*

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper. —:o:—

DR. C. McLANE'S
LIVER PILLS
are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine.

As a simple purgative they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LIVER
HEPATINE.

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

GLOBE FLOWER SYRUP.

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price. For sale by all Druggists.

Price 25 Cts. and $1.00

BLOOD
STILLINGIA.

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PEMBERTON'S STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer.

$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

Price by all Druggists $1.00.

CURE FOR SCROFULA

A BRIEF HISTORY:

The following is from the Raleigh News and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs. Person's father, Mrs. Person lives in Franklinton, or in the section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered th herb, got the whiskey, and did as directed the child. Her child now lives well an hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and adued if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterwards sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

T. J. STOKES

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL CO., N. C.

Being desirous of adding my testimonials to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL,

Respectfully your friend,
MRS. S. T. BROWN.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me, Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person a remedy, and had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my spiritedness died before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C

——Oysters are now abundant again, while game is becoming scarce.

——The Spring Term of the Baptist Female Seminary opens to-morrow.

——Jack Frost has assumed control again.

——The House had a busy session yesterday, much work and little talk.

——It looks as if there will be some more skating.

——The lengthy ulster is now very prevalent on the streets.

——They are gradually getting rid of their colds, but are yet a little hoarse.

——The complaints about the lights are now a little less loud.

——Fayetteville street needs repairs to the roadway badly.

——Business was pretty fair yesterday.

——Rev. L. S. Burkhead, D. D., is in the city, and will remain during the week.

Raleigh Chapter, No. 10, meets this evening at 7:30 o'clock. Prompt attendance desired.

——It seems as if all the snows miss this section. People were again deceived yesterday.

——It now requires very persistent inquiry and much perseverance to develop an item.

——Genevieve Rogers appears tomorrow evening in the play of "Cousin Roxy."

——Mr. Thos. Powers, Collector of Internal Revenue for the Newbern district, is in the city.

——The city is remarkably quiet. No arrests were made on Sunday or yesterday. The police force are having a regular rest time.

——The county roads are reported as almost impassible, especially the Swift Creek road, which can hardly be traveled.

——Haywood Saunders, colored, held for abandonment of his squaw, was released from jail yesterday, having given bond for costs.

——The feeling in cotton was somewhat better yesterday. The receipts were light and not equal to the demand.

——Iredell county yesterday drew upon the State Treasury a warrant for $1096 55, for the support of 17 lunnatics in that county for the past year.

——McCallum & Cooper, made an assignment to J. D. Newsom, yesterday. The business will be continued by the trustee until affairs are wound up.

——Just notice the difference in the comfort of the two buildings, the capitol and the post-office, the one heated on the antique, the other on the modern plan.

——Telegrams addressed to A. G. Wilcox, W. F. Taylor, and Hon. David A. Barnes are held at the telegraph office in this city for the want of proper address.

——The four "moonshiners," who were put in jail, Mark Wimberly, Adolphus Scott, Albert H. Scott, and John T. Harwood, have been released, one giving bail for appearance at next Term of Federal Court.

The contest of the Registers still continues. In addition the Moffett and Tucker Register that invented by Mr. Clarke, shown in the Treasury room. Three styles are shown, very ingenious in construction.

——The contracts will be awarded for the construction of the new fire cisterns in a day or two. It is to be hoped and ought to be seen to that not a moment's time is lost in digging them as the most dangerous period for fires is drawing near, that when the March winds blow.

Gen. Raum, Commissioner of Internal Revenue, at Washington, has written a letter to Col. I. J. Young, exonerating him from all charges of a personal nature, and stating that the report of the special agent upon the condition of the office was highly satisfactory.

——The street letter boxes, which are to be put on the street lamps, came yesterday. There are six of them. They will be put up at St. Mary's, at Peace Institute, at N. C. depot, at the capitol, and at two other places. These mails will be collected twice a day by a messenger.

——A riderless saddle horse dashed down west Hargett street, blindly ran over and smashed the handsome fence on the north side of the house of Mrs. Fisher, corner of Hargett and McDowell streets, and then after cavorting around in the yard tore away through the front fence. The owner of the horse was not known. The damage done the fence is considerable.

convicts.

Sheriff James K. Davis, of Lenoir county, yesterday added a quartette of blackbirds to the black war in the penitentiary. They were John Hutchins, James Hargett, Simon Reeves, and James Jones, all guilty of filching and stealing, and all put in for two years each, save the last, who got 3 years.

Monogram Hop

This season has, thus far, not been noticeable for its festivities in the terpsichorean line, but the Monogram Club now propose to give one of their elegant hops, to-morrow evening, at which the usual array of fair faces will be seen, while light hearts and good music will make the fleeting hours pass pleasantly to every participant.

Skating Rink.

At last there is a gleam of light for the pleasure seekers, and the old fun of roller skating is to make them jolly once again. The skates have been laid away for years, but now they are to be taken out, and will prove an uncertain footing to the unskillful and a rapid transit to the knowing ones. On next Monday evening, it is understood, the rink will be opened, it is not known with certainty whether in the large hall over Dodd's store or not, but the place chosen will be commodious and with a good floor. There will be a rush for the rink, no doubt, and it is sure to pay this season. There has been talk about opening it for some seasons past, but now it is a fixed fact. Due notice will be given by the management of the opening night, at which time it is hoped that the devotees of the delightful pastime will be present in force, and make the occasion one to be remembered. There is not a sport which is more healthful and pleasurable than this.

Supreme Court.

Court met on yesterday at 10 o'clock. Present Chief Justice Smith and Justice Dillard. Justice Ashe absent on account of sickness.

The following cases were called from the 4th District:

Kerchner & Colder Bros. vs. Alexander McRae et al, from New Hanover; reversed.

Fire.

By Cable to the News.

LOUISVILLE, Jan. 20.—A despatch to the Journal states that the whole business portion of Allenville, Ky., was burned yesterday.

Our friend, the editor of the Raleigh News, commits a "lapsus pennæ" when he says that "the subscription price of other dailies in the State is $8 per annum." The Sun is only $7 a year or 60 cents a month.

[The Sun is bright, newsey, enterprising and able.]

Poisons and Antidotes.

The following list gives some of the more common poisons and the remedies most like to be at hand in the case of need. The directions may be old, but in case you get a good, strong dose of poison down you will not object to a cure on account of its age:

Acids. These cause great heat and sensation of burning pain from the mouth down to the stomach. Remenies, magnesia, soda, pearlash or soap dissolved in water; then use the stomach pump or an emetic.

Alkalies. Best remedy is vinegar.

Ammonia Remedy, lemon juice or vinegar.

Alcohol. First cleanse out the stomach an emetic, then dash cold water on the head and give ammonia (spirits of hartshorn.)

Arsenic. In the first place evacuate the stomach, then give the white of eggs, lime water, or chalk and water, charcoal, and the prepartion of iron, particularly hydrate.

Lead, white lead, and sugar of lead Remedies, alum, cathartic, such as castor oil and epsom salts especially.

Charcoal. In poisons by carbonic acid gas, remove the patient to open air, dash cold water on the head and body, and stimulate nostrils and lungs by hearts horn at the same time rubbing the chest briskly.

Reading Clerk of the Senate.

Raleigh Letter in the Piedmont Press.

Platt D. Cowan is a heavy built young man, measures 7 feet 10 inches, brown eyes, black hair and moustache and runs above 250 avoirdupois. When a boy he attended the High School at Oxford, Granville county,—later he spent some time about the classic halls of the State University. At the age of 12 years he was librarian of the Wilmington Librarian Association, after which he was connected for a number of years with the Carolina Central Railway Company, but more recently has held a position as clerk in the criminal Court of New Hanover county. His father was a very eloquent speaker and represented his native county many times in the State Legislature. He is a grandson of the lamented Hon. David Stone, of Bertie county, who was once Governor of North Carolina, Supreme Court Judge and Senator to the United States Congress.

[Mr. Cowan likes at least 1 foot and 50 pounds of being as tall and big as above represented.]

If you want to buy a good Coat, Vest pair Pants, Hat or a pair of Boots or Shoes go to Woollcott's open front store, Wilmington street, and he will sell you an unlaundried shirt, with a three ply linen bosom, for 65 cents. *

"United we Stand."

Attendants on wedding parties report that the display of SILVER, BOHEMIAN, CHINA, JAPANESE, &c., &c., at LAW'S never was so fine, nor prices so low as now. The method of buying all the Wedding Presents at one place, where the variety is so large, works well and saves money. *

BEAR HUNTING IN ASHE.

"Rah for Vance and the News."

JEFFERSON, N. C., Jan'y 15 1879.

We have had the cold snap here too. Thermometer 10o below zero on northside of the house and 6o below on the southside. It has moderated now and we had a great ice freshet such as that old man does not remember and great damage has been sustained thereby along the rivers in this county.

Rev. Wm. Calloway an aged Methodist minister died at his residence one mile from here about 10 days ago. Joshua Baker, a highly esteemed citizen of Ashe county died here the 8th inst at the age of 77 years. He had been sheriff of this county for many years, before the war.

John T. Peden, David Price and some other citizens of the northwest corner of this county, and State, killed a 500 lb bear last Saturday, in that locality, after a battle that lasted two days in which bruin received 31 shots. He must have been very old, as his teeth were nearly all gone and his tusks worn out; his four foot was 6 inches across, his hind foot 11 inches long.

We are pleased with the proceeding of the Legislature thus far. "Rah for Vance and the "News."

AT THE INDEFATIGABLE ENDEAVORS TO PLEASE THE PUBLIC. SO HERE GOES.

Ye muses nine, inspire my pen,
To sing of Fayetteville streeet, No 10,
who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk,
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chauce drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adornyour forms and faces;
Picture frames and moulings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy new year too.
And not forget

Parties wishing to buy corn, meal, oats, hay, or anything, you may say, in the way of country produce had better call on Stronach & Allcott before buying elsewhere. They have received this day, 500 bales hay, 500 bushels corn, 350 bushels oats and 150 sacks meal. *

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. Boschee's German Syrup has gained the largest sale in the world for the cure of Coughs, Colds and the severest Lung Diseases. It is Dr. Boschee's, famous German prescription, and is prepared with the greatest care and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced. *

Good Cheer for Consumptives.

There is a form of Consumption which was better indicated by the old fashioned name of "decline." It is the dreaded scourge of some parts of the Southern States, claiming more victims every year than are swept away by the most terrible visitations of the yellow fever. The malady arises from the inability of the patients system, to take up and assimilate the nourishing ingredients of the food that is eaten. Some years ago the medical profession, with remarkable unanimity, agreed that Cod Liver Oil contained the most concentrated and easily absorbed elements of nutrition. If the nauseous taste and smell of the oil could be avoided it would unquestionably be the most sovereign remedy that ever shed a healing blessing on the human race. And these repulsive properties are successfully removed by the union of pure Cod Liver Oil with the Hypophosphites of Lime and Soda in Scott's Emulsion. The combination is a most elegant one, pleasant as sweet milk in flavor congenial to the stomach, and acting directly as a powerful yet gentle tonic of the brain and nervous system.

Speer's Port Grape Wine.

This article of American Wine is highly esteemed by the physicians in this country. The following is a testimonial we saw from the New York Hospital. We publish it for the information of our readers:

NEW YORK, Nov. 14.

I am using Speer's Port Grape Wine, and find it to be an excellent tonic and gentle stimulant, and all other wines, as it possesses their tonic properties without the deleterious effect caused by their impurities. It is also very palatable, and this is a recommendation to many, especially females.

S. S. HARRIS, M. D., N. Y. Hospital.

This is an excellent article for family use, and for females. Druggists have it for sale. Salesroom 34 Warren street, N. Y. Williams & Haywood, agents, Raleigh, N. C.

One Week in Wall Street.

October 7th, 1878, Western Union Telegraph stock sold at the New York Stock exchange, for 96 1-8 per share; October 14th, 1878, it sold at 86.3 4, a fluctuation of 9 3-8 per cent. in seven days; 12,500 shares sold on a margin of one per cent. required an actual capital of $12,500. The same stock delivered at 86.3 4 gave a profit of 9 3-8 per cent. on the stock or $937.50 per hundred shares. On the whole 12,500 the actual profit was $117,187 50 or 9.3-8 times the capital used, in one week. This is a single case taken from the official records of the Stock Exchange, and shows how money is made so rapidly in stocks. Few people, however, have the necessary cash to put up in order to realize such immense profits as these, but capitalists any amount from $10 to $50 000 can be used with equal success by the new combination system of operating in stocks which Messrs. Lawrence & Co., Bankers, New York, have established. By this method of pooling thousands of orders in various sums and operating them as one immense capital, shareholders realize large profits which are divided pro rata monthly. New circular containing two unerring rules for success, and full information so that any one can operate profitably. Government bonds supplied. Apply to Lawrence & Co., Bankers 57 Exchange Place, N. Y. City.
